

# Notice Of Pest Control

---

## RESIDENT COOPERATION AND PREPARATION NOTICE

Location: \_\_\_\_\_

Date/Time: \_\_\_\_\_

On the date specified above, a pest inspection and treatment will be performed in your dwelling by Biologic Pest Control Inc. (508.850.3960). The methods of service to be used will minimize pesticide hazards. However, if you have a health concern that highly restricts what type of service can be performed, contact the management and show this notice to your physician.

### HOW TO PREPARE FOR THIS SERVICE:

---

- It is very helpful to have all lower kitchen and bathroom cabinets cleared out. This includes the bottom shelves of food storage areas, and the floors of kitchen closets.
- Please cover all exposed food and utensils. Do not leave food or utensils out on kitchen counter. Do not leave items on stovetop.
- We will also be inspecting the unit for holes. Please be sure to allow access to walls, the corners of each room, to the baseboard heater units if applicable (ends especially) and clear out all closets floors.
- Cover and unplug fish bowls. It may be necessary to remove pets, but only if upgraded treatment is necessary.
- If you are experiencing pest activity, please leave a note on kitchen counter describing exactly what you are seeing and where you are seeing it.

Dependent upon level of infestation, treatment may include: placement of glue monitors, bait, bait stations, or liquid treatment as needed. The following pesticides (common name, active ingredient, EPA Registration Number) may be used:

First Strike, Bromadiolone EPA #12455-75 and #12455-79  
Borid, Orthoboric Acid, EPA #9444-129  
Dupont Advion cockroach gel bait, Indoxacarb, EPA#352-668  
Dupont cockroach bait arena, Indoxacarb, EPA#352-668  
Gentrol IGR insect growth regulator, EPA#2724-351

This service is being provided so that everyone can live free of pest problems.  
Your cooperation in preparing for this service is helpful to you and your neighbors.
